

Hi,

I hope this finds you well! Recently, I have been volunteering with the American Cancer Society by making personalized cards for cancer patients at local hospitals. I have appreciated all the work the ACS does for cancer patients, and I wanted to get more involved.

I am very excited to share that I have now created a team for Relay for Life, an event hosted by the ACS. At Relay for Life, participants take turns walking around a track for 12 hours to celebrate those who have battled cancer, remember loved ones lost, and take action to save lives.

A crucial part of taking action for this event is fundraising; the money my team raises will help support breakthrough cancer research, prevention and treatment, and patient care programs (such as free rides to chemo, free places to stay near hospitals, and a live 24/7 helpline). The ACS is actually the primary private nonprofit funder of cancer research, investing more than \$5 billion over 75 years.

My team has a goal of raising \$1000 for our Relay event in June. If you are able to, it would mean so much if you could contribute to our fundraiser! Every dollar helps in the fight against cancer. You can access my fundraising page at the following link if you would like to donate:

https://secure.acsevents.org/site/STR?fr_id=101727&pg=personal&px=57795313

Thank you so much,

Natalie:)

P.S. Many companies will match donations! Check this link to see if your company can double your donation: <https://www.cancer.org/involved/donate/more-ways-to-give/matching-gifts.html>
